## Great Soup is Our Passion

The heart of our home is our kitchen! It's the place where our chefs create, mix and mingle nature's finest ingredients to yield incredible tastes and exceptional quality. It's where inspiration and innovation lead to true culinary artistry. We transform our passion for soup into something you can see, smell and taste. Our creativity has pushed us to extraordinary heights presenting you with exceptional soups and sauces that meet the most discerning tastes, *without compromise*.

## Handcrafted with Nature's Finest Ingredients

Each recipe is crafted from scratch, one step at a time, the way Mother Nature intended her finest ingredients to be used. Our chefs begin with real stocks to provide full-bodied backgrounds. Fresh vegetable mirepoix is then sautéed in the kettle to enhance the stock and to develop earthy flavors and aromas. Our chefs add only the freshest and finest ingredients, including tender meats, locally sourced fresh cream, butter and crisp vegetables. The specific ordering of ingredients is essential to our craft. Our chefs introduce hearty ingredients into the kettle first. The more delicate herbs and seasonings are added last. The kettle is slowly simmered to develop the complex flavors and rounded vegetable notes that truly distinguish a *StockPot*® soup variety.

## Exceptional Scratch Indulgence in Every Form!

The Stockpot culinary team has created a new format option, bringing you the uncompromised quality and convenience your operation demands. Now, the layered flavor notes and ideal textures that define *StockPot*® quality are available in two popular formats: the fresh-refrigerated creations you are familiar with and a convenient new frozen option. From Broadway Basil & Tomato Bisque to Adobe Chicken & Toasted Corn Chowder – from Chicken Noodle to authentic Asian Pho Broths, we really do have something for every palate.
